# 20 YEAR SHORT BREAK

## Technical Rider

We can bring our in-ear monitor set with us and will take care of it. We will provide a 16 channel splitter as stage box.

As two musicians don't use in-ear monitoring we also need wedges on the stage for drums and solo guitar (right side).

On smaller stages and playtime less than 45 minutes we can also play without in-ear monitoring and need wedges as shown on the graphic.

We will bring our own vocal microphones with us but need three microphone stands for the vocals.

## Catering Rider

No allergies or intolerances. 2 band members are vegetarian.

For the show we would appreciate some water on the stage (no bubbles)
